## TECHNICAL STRENGTHS

| | |
|---|---|
| **Computer Languages** | Java, C/C++, Golang, Rust |
| **Tools** | Git, Ansible, Jenkins |

## LANGUAGES

| | |
|---|---|
| **English** | Pre-Intermediate |
| **Russian** | Native Speaker |

## CERTIFICATIONS

Learning How to Learn: Powerful mental tools to help you master tough subjects
Object Oriented Programming in Java
Data structures: Measuring and Optimising Performance
Advanced Data Structures in Java
Mastering the Software Engineering Interview
Capstone:Analysing (Social) Network Data
Java Programming: Object-Oriented Design of Data Structures Specialisation
Master Object Oriented Design in Java  Homework + Solutions
Learn Spring Framework Practically  Hands On Recipes

## PROJECTS

juev/juev.org – sources from my site

juev/vim-sensible – fork of tpope/sensible.vim: my own defaults

juev/vim-hugo – vim-plugin for creating new blog-posts on Hugo

juev/jekyll2hugo – migrating jekyll posts to Hugo

juev/russian-mac – emacs keymap for Russian

juev/link-checker – simple program on C++, Golang and Rust for checking weblinks

juev/fortune-go – fortunes program on Golang

juev/go-create – template for golang programs

juev/sms-send – simple application for sending sms messages across smpp connection

juev/go-passgen – password generator

juev/test-tcp – test tcp-connections on Golang

juev/terminal-pomodoro – simple application for pomodoro timer

juev/debian-ikev2-vpn-server – IKEv2 VPN Server on Debain, with .mobileconfig for iOS & macOS

juev/cpp-make-project – program template for C++ applications

juev/jekyll2pelican – golang program for migrating jekyll posts to pelican

juev/vim-jekyll – vim-plugin for simpifying writing jekyll posts
